LEARNING / TEACHING / TRAINING ACTIVITY NO.3 (LTTA3)

BARCELONA, SPAIN

8-15 May 2022

ROMANIA:

- **Elena Luchian**

The Erasmus+ experience was from afar the most beautiful week in my life. Every activity we had was so bonding and unique, from seeing Barcelona from the top of a hill and visiting places of cultural importance to planting that one little lemon tree in the schoolyard. Everyone I met was just amazing and for some people this might sound like a long shot, but I feel like the friendships I made will be lifelong. I've been home for less than a week now and all I can think about is going back, as my ultimate and endless adventure. I will always want to go back.

- **Andrei Făghiean**

Erasmus + is a project that not only develops your English speaking skills, but it also gives you a chance to get to know you better. The mobility in Spain had a theme of greening and reducing waste with a major impact on all participants, urging us to be more cautious about it. The unique experience that this project offers is unbelievable because it transforms strangers into a family. The Erasmus family will pleasantly surprise you by making you a memorable week.

I could see with my own eyes buildings that I had seen only in pictures or just heard about them in stories. The pinnacle of the project was the tree planting project, symbolizing strong relationships that have bound. The farewell party was successful, the ending was full of emotions and tears but brought hopes in our souls that we will meet again as soon as possible.

Surely I will never forget the landscapes, all friendships and the experience we had!

- **Diana Onica**

Erasmus+

In my opinion, this was one of my best experiences in my life. I met amazing people and I visited Barcelona which is a very beautiful city. I made friends with people from different countries that have great personalities. The places that we visited were truly magnificent and it had a really strong impact on me. The food was so delicious. I think this was a unique opportunity and I'm so happy that I had this chance.

- **Vlad Andone**

For me, the Erasmus + experience was one of the most beautiful and memorable I've ever had. Through it, I was able to learn more about the history of Barcelona and Catalonia, as well as make new friends with whom I can keep in touch for a long time to come. This whole week has passed unexpectedly fast. I left Barcelona with sadness in my soul, knowing that once the plane takes off, I will leave behind a special city and some incredible people with whom I felt at home and I don't know if we will have another chance to see each other again too soon.

- **Eliza Oanea**

I had the opportunity to attend the Erasmus+ project and I'm so thankful that I did. I got to talk to all kinds of people from different backgrounds and it was very interesting to see how we all found something to bond over. I truly believe I improved my speaking skills a lot and I've also learned so much about different cultures. However the most important subject I learned about was global warming and the issues in different parts of the world. I got to learn through different presentations ways to make our school become more eco friendly. I think more students should participate in projects such as erasmus to improve their knowledge on both other countries as well as global warming and problems related to it.

POLAND

The exchange in Barcelona was the best week of my life! I'm really happy I had an opportunity to visit this wonderful city, get to know its history, try local food and create new connections with people from around the world. Not only was I practising my English but also developing social skills and finding solutions to environmental issues. I'm sure friendships we've created are going to last forever and I'm really happy about that. /Alicja Łącka/

Erasmus+

It was an incredible experience. I loved the city of Barcelona and how much we explored it. This week was one of the best in my life. I'm so happy I got the chance to participate in this adventure. I met amazing people with whom I will keep in touch. ♥
/Paulina Borys/

The exchange in Barcelona was one of the greatest experiences in my life. I'm so grateful for this opportunity not only to understand the issue of green schools, but also improve my English and social skills, meet amazing people, see so many beautiful places and make unforgettable memories. It has and always will have special place in my heart. /Agnieszka Liszka/

The exchange was a wonderful experience for me. I have met many awesome people, improved my English and I had a lot of fun. Moreover, the Erasmus enabled me to see gorgeous place, which is Barcelona and create bonds with students from the whole Europe. /Agata Stefańczyk/

That week in Barcelona was a life-changing experience. A lot of stuff happened. I saw gorgeous monuments and pieces of art, tasted the local cuisine, went to local shops and cafes, improved my English, danced, learned more about different countries from the project, and even planted a tree! But those are not the essential things in my memories (however, they are important too) because I guess if any of us would think about it for a moment, it is the people we accidentally meet that make the most meaningful memories during such an exchange. I had met so many fantastic people there and the memories of walks, evenings, nights, various activities, and just kidding around, which I get from those relations, are far better than only "the best". Thanks to all of this, I am pretty sure that I am going to remember this trip forever. /Witold Lipski/

The week in Barcelona was one of the best experiences in my life. I've met such amazing people from all over the world and made some good memories. I've also learnt a few ways to help the Earth. I've had so much fun and wish it lasted a little bit longer. /Wiktoria Szkudlarek/

Erasmus+

Erasmus+ exchange in Barcelona was such a great time. We visited many places and learned new, interesting facts about Barcelona and Catalonia. But the most important thing is that I met wonderful people who I'm going to stay in touch with after the exchange. The experience of Catalan/Spanish atmosphere, attitude and delicious food are something that I'll remember forever. /Mateusz Jurek/

ITALY

The mobility in Barcelona was such an amusing experience. The program was rich in activities and never boring. The exchange students were very nice and friendly in particular the Spanish students. We have created a beautiful group and we are always in contact. Despite the luggage accident, it was a perfect week. It was my first exchange experience and it will remain in my heart forever.

Matilde Caratelli

I found the Erasmus very well organized. I learned a lot of things about other countries traditions and other curiosity of that kind. I made several friends and I had the chance to improve my English and my knowledge as far as the environmental issues and solutions are concerned. It was a really pleasant, fun and interesting project to be part of.

Ester Iannucci

It was my first time in Barcelona and I loved the city and the host guys who have been really welcoming and with whom I made friends. City tours were really well organized and we managed to see the most important parts of the city.

Bernardo Boscagli

I really enjoyed the Erasmus experience mainly because of the cultural exchange between the various delegations, learning about the customs and traditions of each nation. These experiences are also very useful in establishing bonds and friendships with the international students

Pietro Formentin

Erasmus+

Erasmus in Barcelona was a really nice and funny adventure, I really enjoyed discovering the history and traditions of the city and of Catalonia. All this thanks to the Spanish guys who talked about it in depth. Moreover talking about environmental problems with the guys of the other delegations helped us a lot to socialize and to discover the different methods of eco-sustainability in different countries.

Davide Grazzini

GREECE

I had a fantastic time in Spain. It was also a fantastic experience and I would love to go again in the future. I learned many things with foreign children. I really want to return to Spain. I really enjoyed the activities and the video we made for recycling. I liked the balcony that the hotel had because we had a great time with the girls there.

/Katerina Zacharaki/

The week I spent on Spain was one of the best experiences in my life. I got to know a lot of amazing people and I learnt very interesting things about their cultures. Another very likeable thing about this trip was the activities we did with the students. I left this country with wonderful and unforgettable memories. I'm glad i participated in this program and will definitely visit Barcelona again. /Maria Theologou/

The trip to Barcelona was a chance to meet new people from the countries that participated to Erasmus+ program, to learn new languages, to exchange opinions and cooperate with all the participants. The most amazing fact of all was that how fast we got close with the people from the other delegations whom I hope I see again. All I have to say is that I came back to Sifnos with such a great memories that I'll never forget! This week was a break from our reality and full of unforgettable experiences that will always have a big part in my heart. /Evgenia Zacharaki/

It was such a fabulous week which left us the best memories. We meet other people, make new friends, learn about new cultures and their everyday life, we talked about green schools and do activities about it. An unforgettable life experience for all of us and I am glad I participate in the program of Erasmus and went to Barcelona. /Prounia Vasiliki/

Erasmus+

I really liked the erasmus program. I really like the fact that I met all these new people and they were all so nice and I was really surprised about the activities that we did here... /Kleio Margiola/

I'm glad I participated in the erasmus program because I learned new important things about various topics, I met new people and made friends. It was a nice experience, I learned about other countries and made memories for a lifetime. /Despoina Fragkou/
